****In Prep Stage - not available for viewing/test drive yet ****
 This lovely example of a well maintained Lexus, which is quite rare for its age and WARRANTED miles has come in to our possession and we have just done a full service and off it goes for a full year's MOT. The car is a great drive and immaculate for its age. The car also has an in-car entertainment system which is great for long drives, especially when everyone in this country are vacationing at home these days. Please give us a call and book your test drive with us.
